

Andrew Clarke

General Manager, Digital and Chief Technology Officer, Asia

Andrew Clarke is the General Manager for Digital at DXC Technology in Asia, where he is responsible for incubating and growing our digital practice by building the right skills, processes, knowledge and insights to deliver offerings on Platform DXC™, supported by the DXC Bionix™ framework. He is also the Chief Technology Officer for Asia, responsible for promoting DXC's technology story in the region as well as helping to shape the future technology direction of the organization.

Prior to this, he was the Offering Leader and General Manager for Applications Services, and Enterprise and Cloud Applications, delivering application delivery, management, testing and modernization services across the region.

He held a similar role at Hewlett Packard Enterprise's Enterprise Services business (HPE ES) where he was also the worldwide industry lead for Consumer Goods and Retail industries. HPE ES merged with Computer Sciences Corporation (CSC) to create DXC Technology in April 2017.

Andrew has over 25 years of technology consulting experience and has led business transformation programs for global organizations, focusing mainly on retail and consumer goods sectors. His past clients include Coca-Cola, Philip Morris, Foster's, Coles, Del Monte, Jollibee, Unilever, Fast Retailing, Maple Leaf Foods, Loblaw, SmithKline Beecham, Lawson and Cadbury-Schweppes, amongst many others.

Prior to joining HPE in 2013, Andrew worked for Accenture for more than 20 years. He has worked extensively in Europe, Asia Pacific and North America, and at present is based in Singapore.
