## Industries

### Insurance

We're the No. 1 provider of core insurance software and services globally. We support growth, speed to market and efficiency through digital insurance solutions and business process services.

### Healthcare and Life Sciences

We provide industry-leading software and business process services to providers, payers, government health and life sciences. We focus on clinical care and operational efficiency with digital care transformation solutions.

### Travel and Transportation

With 40+ years of industry experience, we support mission-critical systems for top airlines, consumer travel, freight and logistics, and railway firms. Our services help clients support growth and transform operations.

### Public Sector

With a 50-year track record, we're one of the world's leading independent IT service providers for all levels of government agencies. We provide secure, 24x7 support to mission-critical systems and operations.

### Energy

We've supported more than 400 energy businesses worldwide over 20+ years. Our solutions help clients rapidly seize market opportunities, gain competitive advantage and evolve with new business models.

### Banking and Capital Markets

A leading provider of banking software and front-office managed trading solutions, we support banking and capital markets clients with 30+ years of industry experience, specialized services and resources to make transformation happen.

### Manufacturing

A leading IT services provider to automotive, aerospace and defense, industrial, high tech and chemical firms, we combine deep expertise in manufacturing, connected products, analytics and security to help clients drive innovation.

### Consumer Products and Retail

We help the world's leading consumer packaged goods and retail firms focus on consumer experience to help clients seize opportunities in the face of disruptive digital trends.

### Communications, Media and Entertainment

We provide innovative business solutions to the world's leading communications, media and entertainment firms to transform their business, redefine the customer experience and capitalize on digital convergence.

### Aerospace and Defense

A leading IT service provider to A&D firms, we help clients shorten time to market, gain insight from data and adopt digital technologies to accelerate innovation across manufacturing and supply chains.
