

Muralikrishna Rajagopalan

Offering Leader and General Manager, Enterprise and Cloud Applications, Asia

Muralikrishna Rajagopalan (Murali) is Offering Leader and General Manager for Enterprise and Cloud Applications (ECA) at DXC Technology in Asia, responsible for executing ECA's growth strategy and building offering capabilities in applications from SAP, Oracle, Microsoft Dynamics and emerging practices of Salesforce, Workday, ServiceNow and IBM.

Prior to this, he held various sales and delivery roles throughout his 17+ years with CSC - which merged with Hewlett Packard Enterprise's Enterprise Services business to create DXC Technology in April 2017. As account general manager, he led engagements for Fortune 500 clients throughout the APAC & Middle East regions and has an excellent record of increasing business performance and operational excellence with strong P&L accountability.

With over 25 years of experience in Services, R&D, Business Development, he has led multiple complex Outsourcing/ Managed Services engagements in the region from due diligence, transition and transformation to operations.

Based in Singapore with his family, Murali holds a Bachelor's in Electrical Engineering from Kurukshetra University, India and a Master's in Business Administration from University of Strathclyde, U.K. and is a Certified Outsourcing Manager, (COMIT Senior) by Singapore Computer Society.
