

DXC Fruition Lift

Benefits

- 70% faster than traditional implementations
- Does not require time and resource intensive workshops
- Provides a delivery playbook and information gathering templates to accelerate deployment
- Reduces service delivery costs by providing direct access to Service Catalog, Knowledge, and Tickets via the pre-built CMS portal
- Includes one full year of post-implementation platform support to accelerate process customizations and solution adoption

Lift addresses a growing need for a simple and rapid implementation of ServiceNow. Lift accelerates deployment of the platform by using a standardized approach with little to no customization. It removes the need for lengthy workshops and process redesign by focusing on consistent use of ITSM best practice processes and configuration.

Combined with the depth and breadth of platform experience offered by DXC Fruition, DXC Technology's global ServiceNow practice, this approach allows you to stand up a ServiceNow platform in weeks, not months.
