Executing what matters.
Delivering results.

DXC Technology
Corporate Overview
At DXC, we run the mission-critical systems that keep the world moving.
Unlock value with DXC
Leveraging the Enterprise Technology Stack to seize the market

Helping Our Customers

• DXC is in a perfect position to help customers manage their IT estate across the Enterprise Technology Stack.
• The criticality of the IT estate is top of mind for customers. They need to manage previous investments in enterprise infrastructure as they also move some of their IT estate to the cloud.
• They do this by:
  - Running and maintaining on-premises technology infrastructure securely;
  - Migrating relevant on-premises resources to the cloud and securing them;
  - Developing innovative applications while improving agility and accelerating time-to-market;
  - Harvesting data with advanced analytics and engineering.
• Our focus is on helping customers with IT modernization, including on-premises and cloud, data-driven operations and workplace modernization.

Solution Themes (Offerings)

1. Digitally Engineered Enterprise
2. Data-Driven Insights
3. Modernized Applications
4. Modernized Infrastructure
5. Protected Enterprise
6. Resilient Operations
7. Modernized Workplace
8. Business Process Services*

**Customers we serve**

- Accelerated **BMW Group’s** ability to harvest and manage data on a massive scale, simplifying insights and reducing time to develop autonomous vehicles.

- Elevated **SAS Airlines’** ability to deliver exceptional customer experiences via an advanced analytics platform.

- Implemented an **electronic patient records application** for **Royal Papworth Hospital NHS Foundation Trust** to improve care and set a foundation for transformation.

- Modernized operations for **DB Cargo**, yielding significant savings through **integrated rail cargo management application** supporting 15 countries in Europe.

- Helped **Molson Coors** integrate legacy and SAP applications and realize $35 million in IT savings over 3 years.

- Provided **Uniper** with a **digital infrastructure** to accelerate new products, manage suppliers and respond to turbulent markets.

- Supported **Campbell Soup Company’s** operations across infrastructure, applications and security, with an IT foundation focused on value-added activities.

- Deployed an innovative **security strategy and solution** for Italy’s **National Institute for Insurance against Accidents at Work** to strengthen INAIL’s resiliency to malware attacks.

- Created an **intelligent digital workplace** for **Saab Group**, enabling employees, suppliers and partners to collaborate globally and securely — while saving $4 million a year.

- Enabled **Tops Markets** to adapt to customer preferences, expanding online services and building a foundation to support digital transformation.
Industries we serve

~6000 customers around the world across a variety of industries

- Insurance
- Healthcare and Life Sciences
- Travel, Transportation and Hospitality
- Banking and Capital Markets
- Aerospace and Defense
- Consumer and Retail
- Energy, Utilities, Oil and Gas
- Manufacturing and Automotive
- Public Sector
- Technology, Media and Telecommunications
Regions we serve

**Americas**
United States, Canada, Caribbean Islands, Central America, Mexico, South America and the Antilles

**UK, Ireland, Israel, Middle East & Africa**
United Kingdom, Ireland, Israel and various countries in the Middle East and Africa

**North & Central Europe**
The 33 countries in the region include the Nordics, Greenland and the Netherlands in the North; the Eastern European states and the Russian Federation in the East; and at the heart of the region the Central European countries Switzerland, Austria and Germany

**Southern Europe**
Andorra, Belgium, France, Gibraltar, Italy, Luxembourg, Malta, Monaco, Portugal and Spain

**Asia**
China, Hong Kong, Taiwan, India, Japan, South Korea, Singapore, Malaysia, Thailand, Laos, Vietnam, Philippines, Sri Lanka, Bangladesh, Cambodia, Indonesia, Myanmar, Brunei Darussalam, Pakistan, Maldives and Mauritius

**Australia & New Zealand**
Australia, Fiji, New Caledonia, New Zealand and Papua New Guinea
Helping our customers when they need us most

The COVID-19 crisis required an immediate IT response. Our customers prevailed, with support from global DXC employees — 99% of whom were enabled to work virtually.

- Enabled call center agents to work from home, fielding a 30% increase in calls and increasing customer satisfaction to 94%
- Deployed a fully functioning, cloud-based service desk solution in 48 hours
- Processed 36,000 benefits applications in 1 week, nearly 5x normal volume
- Supported critical needs for 37 hospitals, including installing 3,500 VPNs
- Built and deployed two new servers in record time to support virtual collaboration

“THANK YOU DXC. We highly appreciate the contribution you made to prepare us for the corona crisis. Today more than 35,000 people are working from home, with Skype and the workplace filesharing platforms stable. Before the crisis our peak day was 4,000 remote workers.”

– Global automaker

“Because of the COVID-19 pandemic, many of us are confined in our houses, so we have no other option than working remotely. Some people are collaborating with each other even more than before. This is possible simply because we are using the tools that my IT team together with DXC are deploying.”

– Joaquín Lozano Agramunt, Group CFO, URSA, a large European manufacturer
