Why DXC?
Digital leadership
DXC is leading a major digital transformation program for a large defense firm to help capture over $750 million in benefits from operations.

Compliance
DXC is the No. 1 IT provider at global top 10 A&D firms delivering extensive regulatory compliance services such as ITAR.

Trust
More A&D companies trust DXC to provide their IT services than any other company.

Experience
DXC has the skills to understand lifecycle processes and a vast array of installed systems.

Scale
DXC has the experience and capabilities to deliver complex A&D projects on a global scale.

Accelerate manufacturing throughput
DXC Digital Thread enables A&D leaders to access, integrate and transform disparate data about performance and cost into actionable information.

Common challenges
- Throughput
- Cost
- Visibility
- Quality
