# Accelerate change with SAP Business ByDesign for the aged care industry

DXC Oxygen's SAP Business ByDesign packaged solution for the aged care industry gives providers an integrated, data driven ERP platform with the performance and cost advantages of cloud hosting.

Specifically tailored to the needs of the aged care industry, it allows your organisation to manage its entire care business on a single, cloud-based business suite.

### **The need for change**

As an aged care provider operating in the rapidly changing regulatory environment, you know that legacy

products offering retrospective decision-making capabilities are no longer adequate to accommodate the increased service demands of the new consumer-led aged care industry.

Evolving technology, changing governmental regulations and the growth of an ageing population, require capabilities that enable a quick response to new business realities. A key

## Package, pricing & timeframe

- **SAP products:** SAP Business ByDesign and SAP Analytics Cloud
- **Elapsed service time frame:** From 12 weeks

## About SAP-qualified partner-packaged solutions

SAP-qualified partner-packaged solutions are built, sold, and supported by an SAP partner as an integrated solution that leverages market-leading SAP software and innovations, together with an the partner's intellectual property, to deliver low-risk, predictable projects at attractive price points – for a rapid time to value.

**Australia**  
1 800 002 354

**New Zealand**  
0800 008 606

[www.dxc.technology/au/oxygen](http://www.dxc.technology/au/oxygen)

enabler in meeting these new market conditions is a digitally enabled IT solution. By adopting real-time, mobile and cloud enabled software, you can improve decision making capabilities and embrace a more collaborative consumer economy.

## Seamless move to the cloud

Our SAP qualified Business ByDesign packaged solution makes your move to the cloud simple and seamless. Cloud computing gives you the opportunity to scale your computing resources simply and cost effectively whenever it is necessary. Our hosted solution provides auto-scaling capabilities which means you only pay for what you use.

Discrete, on premise solutions make the job of adding new sites and customers much more difficult as they cannot be scaled up or down rapidly. Flexible scaling offers advantages in terms of infrastructure – computing power and storage – but also makes it easier for you to develop applications, including mobile apps, and provision staff with the tools they need to do their job.

## Streamline your processes

DXC Oxygen's SAP Business ByDesign solution package is ideally suited for aged care service providers who wish to enhance financial management, while supporting business expansion and streamlining day-to-day transactions. The solution includes native integration with Health Metrics' industry specific accounting and management modules to provide real time insights tailored to the exact needs of each organisation.

## About DXC Technology
