

DXC Certifications

DXC uses and continuously improves its global quality and security processes, ensuring consistency of approach and the deployment of a standard global process set to all our clients as applicable.

DXC Technology boasts a proud history of innovation, service and value, and a long-standing commitment to standards, models and frameworks that began over three decades ago with our first Certification in ISO 9001 (Quality Management).

Since then certification programs have continued to expand and we have built an Integrated Management System (IMS), that supports multiple standards, models and frameworks like ISO 9001 (Quality Management), ISO 14001 (Environmental Management), ISO 20000 (Service Management), ISO 22301 (Business Continuity Management), ISO 27001 (Information Security Management), as well as ISO 27017 / 27018 (Information Security Controls for Cloud Services), OHSAS 18001/ISO 45001 (Health and Safety Management), ISO 50001 (Energy Management), SA 8000 (Social Accountability), ISO 13485 (Quality Management in Medical), TISAX, ISO37001, COBIT5, CMMI-DEV, and CMMI-SVC.

DXC has close to 400 sites in 50 countries around the world, certified to one or more of the above standards. Our certifications apply to a broad and diverse range of industries including Automotive, Financial Services, Insurance, Life Sciences, Retail, Healthcare, Utilities, Manufacturing, Mining, Public Sector, Technology, Digital, Transportation, Engineering, Media and Communications.

Our Delivery Excellence External Certifications team is dedicated to one mission: meet the exacting standards in terms of service, quality and consistency as expected by our clients. To maintain our high quality standards, we leverage the vast knowledge base of our worldwide team of dedicated subject matter experts in various standards, models and frameworks – ensuring that the program continues to be impartial, commercially relevant and continually improving. Reinforcing our efforts are Lloyd's Register (LR) who annually conduct a comprehensive, worldwide program of independent external assessments to ensure our certifications are maintained and renewed as necessary.

Our greenhouse gas data collection and reporting approach are externally assured, in accordance with ISO 14064-3:2006. The external verification is provided by Lloyd's Register.

DXC's commitment to quality is evidenced in the way we have implemented standards, models and frameworks to demonstrate our service delivery capabilities. DXC customers gain confidence in our certification and assurance programs that have fueled excellence in the way we build, sell and deliver services for our customers.
