Advanced business intelligence, analytics and reporting
DXC Action Analytics for Microsoft Dynamics

Unlock the potential of your business by turning data into actionable insight

- Maximize your data analytics capabilities
- Simplify reporting by eliminating complex setups, long learning curves and high upfront investments
- Leverage pre-built dashboards and KPIs
- Gain near real-time visibility into all aspects of your business
- Make insight-driven decisions

DXC Action Analytics is a next-generation business intelligence (BI) application delivering powerful insights through pre-built reports and dashboards within a self-service environment that helps you answer the right questions, at the right time.

Built on a highly scalable, near real-time analytical platform, DXC Action Analytics provides customizable dashboards compiling data from retail stores, manufacturing plants, warehouses and/or contact centers.

Data Agnostic

DXC Action Analytics supports all your data, regardless of size or type, without limitations. Rapid access is available to all data (including business data and nonrelational data) in near real-time without the need to build a complex data cube allowing multiple data sources to be added to Microsoft Dynamics, creating a holistic view of your organization.

Extend with AI

Automate and predict business processes with machine intelligence to evolve from simple, descriptive analytics to prescriptive recommendations. Covering retail, supply chain and manufacturing scenarios, the solution models deliver measurable bottom line results driving real business innovation.
Rapid deployment
Start with DXC Action Analytics instead of investing large capital expenditures in development costs up front. With a range of pre-built dashboards and KPIs, DXC Action Analytics can be delivered within weeks, not months.

Power BI
DXC Action Analytics leverages Microsoft Power BI as the BI presentation layer for the solution. This offers a modern, self-service business analytics tool that makes it easy to analyze data, share insights and monitor business reports across any device.

Next Steps
Make the most of your Microsoft Dynamics data and experience the simplicity and success of DXC Action Analytics. Get more out of your data and evolve from simple descriptive analytics to prescriptive insight – for faster, better decision-making that will transform your business.

Why DXC Eclipse?
DXC Eclipse, a practice within DXC Technology, helps enterprise and mid-market companies accelerate digital transformation, solve business challenges and deliver intelligent solutions that make a difference for clients, employees and partners. We believe in delivering expertise, project transparency and excellent customer service in every engagement.
