

Accelerate and simplify your path to digital transformation

DXC Technology and SAP strategic partnership

DXC and SAP at a glance

- Proven services and solutions that revolutionize the way you consume SAP and dramatically increase your ability to focus on the business instead of IT
- High-impact business differentiation via smart, well-executed roadmaps to industry-focused digital transformation
- Accelerated journey to S/4HANA — faster, more secure and less costly than traditional approaches
- Always-on, end-to-end monitoring that automatically predicts, detects and corrects issues before they affect your business

About SAP

As market leader in enterprise application software, SAP helps companies of all sizes and industries run better. From back office to boardroom, warehouse to storefront, desktop to mobile device, SAP empowers people and organizations to work together more efficiently and use business insight more effectively to stay ahead of the competition. SAP applications and services enable more than 378,000 business and public sector customers to operate profitably, adapt continuously and grow sustainably. Learn more at www.sap.com.

Organizations worldwide are digitally transforming their business models and processes to meet evolving market demands — a daunting task without the insight of experienced partners. DXC Technology and SAP work together to deliver SAP-based solutions that accelerate and simplify the path to becoming a true digital enterprise. DXC works side by side with clients to create and execute an industry-focused roadmap that starts with the business case and goes all the way through solution design and intelligent improvement of ongoing operations. This strategic partnership will guide and accelerate your digital transformation while revolutionizing the way you consume SAP.

Client benefits

DXC has the skills and expertise you need in an IT partner — honed over decades spent helping clients harness the power of IT and running the most critical and complex SAP systems in the world. As digital disrupters, we help enterprises dramatically improve their ability to thrive in a world of change by:

- Transforming existing SAP operating models using innovative business solutions and platforms
- Improving customer experiences with predictive analytics and real-time decision making
- Enabling organizations to better decipher and harness customer information
- Reducing implementation costs and improving time to value

DXC is a platform-independent, one-stop shop for all SAP services that is dedicated to helping you get the most value from your existing and future SAP investments. We start by assessing your digital readiness and strengthening business processes to increase both efficiency and effectiveness. Then we help you more consistently achieve desired business outcomes by optimizing your SAP environment through:

- Cloud-based building blocks
- Packaged application management solutions
- Innovative migration and deployment methodologies
- Proven machine learning and data management capabilities

Once solutions are deployed, DXC delivers the first true “on demand” digital operations model across the platform and application layers. Our automated Continuous Business Outcome Operations services include full detection and resolution capabilities that identify and correct potential incidents before the business is affected. With DXC and SAP, you can operate in the cloud securely and confidently.

Joint offerings/solutions

DXC’s robust partner ecosystem helps us deliver a full spectrum of SAP-based solutions that digitize, simplify, automate and standardize our clients’ businesses.

S/4HANA transformation

- Business-centered roadmaps provide visibility into implementation plans and benefits.
- Business-focused deliverables, including accurate budgets and schedules, drive meaningful results.

Industry transformation

- Focus on industry-specific S/4HANA solutions. Provide targeted solutions in insurance, aerospace and defense, utilities, manufacturing and CPG, as well as other industries that leverage SAP extensively.

Cloud edge innovation

- **Visibility Exception Management and Optimization** is an open architecture, preconfigured solution that can be implemented within 2 to 3 months and

enhances the value of the internet of things, SAP Integrated Business Planning and Leonardo offerings.

- **SAP Hybris** provides a unified front-office portfolio across e-commerce, marketing and customer relationship management (CRM) that enables omnichannel customer engagement across all industries — speeding time to market for clients with DXC-proprietary intellectual property.
- **SAP Ariba** integrates the buying process across the entire organization, providing insight for creating and managing lasting partner connections with efficient, error-free transactions.

Platform services

- End-to-end, industrial-strength services and solutions help you rapidly adopt SAP digital core solutions — from strategic assessment and planning to implementation and operations.
- Always-on cloud platforms are available as private/on-premises, public, hybrid or multi-cloud solutions.

Differentiation

DXC is an SAP Platinum Partner and one of the world’s largest SAP service providers, supporting over 2 million SAP-client users. After more than 25 years of collaboration, we’ve reached important SAP-related milestones, including 250+ global partners, 15,000+ global SAP practitioners and 39 integrated delivery centers worldwide.

About DXC Partner Network
