Accelerate, automate and manage your digital journey
DXC Technology and Oracle strategic partnership

For well over 30 years, DXC Technology and Oracle have provided dynamic technology leadership to clients looking to achieve game-changing business outcomes such as increased agility, global scalability and deeper business insights. With a broad portfolio of DXC services centered on Oracle's integrated cloud platform and market-leading software-as-a-service (SaaS) applications, DXC and Oracle are in a unique position to help enterprises harness the power of digital innovation to their advantage.

DXC and Oracle at a glance

- DXC is one of two global Oracle Managed Service Providers (MSPs), enabling DXC to help clients redirect high IT costs to exciting digital innovations.

- DXC provides comprehensive services for Oracle's complete portfolio, including its market-leading SaaS applications and highly scalable cloud platform.

- DXC earned multiple 2018 Oracle partner awards, including:
  – ANZ Regional Partner of the Year Award
  – Ultimate EMEA MSP Partner Award
  – #1 India System Integrator (SI) Oracle Partner Award

About Oracle

Oracle is a leading provider of business software, with a broad portfolio of solutions for companies of all sizes. More than 430,000 customers in 175 countries use Oracle technologies to seize business opportunities and solve complex challenges.

Client benefits

The DXC and Oracle strategic partnership draws on an extensive community of business, technology and industry experts focused on bringing business value to enterprises as rapidly as possible. DXC and Oracle jointly develop and implement solutions that combine the market-leading strengths of Oracle's cloud portfolio with DXC's deep, unrivaled expertise in enterprise applications and platforms.

Due to DXC's extensive experience with top application vendors, DXC can provide seamless integration among Oracle's suite of SaaS applications, non-Oracle cloud applications, and legacy, on-premises applications on any hardware or cloud platform. In addition, by leveraging Oracle's Cloud at Customer platform, DXC can help clients implement Oracle Cloud at an Oracle data center, at the client's data center or at a DXC data center, whichever is most effective and productive for the client.

DXC and Oracle work together to design and implement solutions that take a pragmatic approach to solving real-world business problems. Using our repeatable, automated, proven services, our clients leverage Oracle cloud solutions to transform their businesses by making best use of leading-edge digital innovations. For example, we helped:

- A large, UK-based teaching hospital implement Oracle's market-leading Enterprise Resource Planning (ERP) Cloud SaaS application, leveraging Oracle's Autonomous Cloud Integration to provide real-time access to expenses and revenue

- National Pharmacies, an Australia-New Zealand-based pharmaceutical company, consolidate its ERP applications and move them to the cloud, streamlining overall business operations and fulfilling customer orders faster and more efficiently

- One of the world's largest wine companies increase its business agility and reduce IT costs by implementing a hybrid cloud, prebuilt, preconfigured "ERP as a service" solution running on Oracle's Cloud Platform

- One of the world's largest mining companies migrate 300 databases from three different Brazilian data centers to Oracle's Cloud at Customer platform running in a DXC data center in Brazil

DXC helps enterprises use Oracle solutions to increase productivity and efficiency while improving business and IT processes in support of strategic goals. In doing so, DXC and Oracle customers have reduced costs and improved their return on investment for both existing and new solutions.

Joint offerings/solutions

Through our strategic partnership, we bring the strengths of DXC and Oracle to clients in three key areas:

- **Next-generation applications for the as-a-service economy.** We help clients accelerate time to value by implementing and upgrading to

---

"Oracle and DXC have a longstanding relationship and track record for delivering high value to our mutual clients. DXC's excellent customer relationships and deep technical expertise combined with Oracle technology provide an outstanding foundation for success as we help customers pivot to the cloud."

Camillo Speroni
Vice President
Worldwide Strategic Alliances
Oracle

Oracle Cloud SaaS Applications, including Oracle Enterprise Resource Planning Cloud, Oracle Supply Chain Management (SCM) Cloud, Oracle Human Capital Management (HCM) Cloud and Oracle Transportation Management Cloud, which are all aligned with DXC's migration, integration and management services. Clients can choose how they implement and run front-office and back-office application portfolios to best fit their needs. Our Oracle offering portfolio provides industry-specific accelerators backed by a track record of successful implementations, and offers the option of having DXC run, automate, maintain and test the client's applications.

- **Moving and improving existing legacy applications on Oracle's Cloud Platform.** DXC supports clients as they transform their businesses and migrate applications to a hybrid cloud environment using Oracle's Cloud Platform and DXC's extensive Oracle Cloud Platform migration and management services. Our services provide a proven framework for leveraging Oracle's expansive Infrastructure as a Service (IaaS), Platform as a Service (PaaS) and Software as a Service (SaaS) solutions, in either traditional or as-a-service models.

- **Harnessing intelligent automation to streamline business operations.** DXC offers advanced robotic process automation (RPA) to analyze and update business operations to remove roadblocks and reduce delays, thus increasing business agility.

Differentiation

DXC and Oracle have worked together for more than 30 years. DXC is a Platinum partner in the Oracle partner network with multiple Certified Excellence Implementer (CEI) achievements and certified as one of only two global managed services providers (MSPs) in the Oracle partner community. DXC has an extensive number of complementary offerings, which allows us to tailor specific solutions to meet a wide range of client needs. DXC supports that ability with more than 4,500 Oracle consultants worldwide and qualifies for more than 45 Oracle Specializations.

DXC and Oracle also help clients stay at the forefront of technology developments. Oracle devotes billions of dollars each year to research and development, while DXC operates many dedicated Oracle Solution Centers across the globe.
