DXC Baggage Calculator
Automate baggage rules and fees

- Standardized, automated, and accurate pricing across agents/channels
- Inclusion of special items and gear
- Integration via web service
- Wide range of features and benefits:
  - Partner airline rules
  - Government regulations
  - Loyalty benefits
  - Special discounts

Rich functionality

DXC Technology offers the Baggage Calculator solution to help you automate and simplify baggage rules and fees. Functions include:

- Identifying the fee-determining carrier
- Slicing the itinerary into baggage travel units
- Applying government rules (including US DOT and Canadian Transportation Agency)
- Applying industry rules (including IATA Reso. 302)
- Checking for embargo items
- Checking for prepaid discount eligibility
- Applying frequent flyer benefits—even for partner airlines
- Issuing Electronic Miscellaneous Documents (EMDs)

Web Service and EMD interface

The Baggage Calculator is available through a dynamic XML-based web service, which can be connected to virtually any airline IT system. It is also available through the DXC EMD product with a user-friendly, web-based interface, allowing the user to issue an EMD.

Virtually no configuration

Baggage Calculator is driven by industry-wide ATPCO data feeds. The system is updated on an hourly basis and consumes data from hundreds of carriers.

A solution for your entire airline

Reservations—Provide accurate information to your customers for even the most complicated itineraries.

Check-in—Apply rules and charges in seconds for interline journeys, special gear, and multiple passengers.

Revenue accounting—A powerful way to avoid debit memos and improve your ticket audits for interline settlement.

Revenue management and revenue integrity—Avoid revenue leakage by making sure that every agent assesses the correct fee.
